

GREENWICH VILLAGE APARTMENT COMBINATION

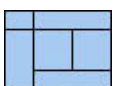

Manhattan, NY

Located in a classic Emory Roth apartment building in the Greenwich Village Historic District, this project involved the joining of a studio and a one bedroom apartment. The design solution revealed new diagonal views slicing across the interior creating dramatic interior vistas. The creation of a series of intimate spaces—study, kitchen nook, and sleeping alcove provides places for tasks which are adjacent to the larger dining and living spaces and creates a clear hierarchy in the plan. The bathroom was redesigned with a patterned textured accent wall. The kitchen became the knuckle connecting the two apartments and providing new views to each side.
